Global Medical Information Contact Center Operations
Statement of Work
For
Grünenthal GmbH

Date: March 15, 2023

This Statement of Work (this “Statement of Work” or “SOW”) by and between Grünenthal, GmbH, and its affiliates (“Client” or “Company”) and EVERSANA Ireland Limited (“EVERSANA”) is made and entered into as of March 15, 2023 (“Effective Date”) and is incorporated into and governed by the Master Service Agreement between Client and EVERSANA dated effective as of 30 September 2022 (the “Agreement”). Capitalized terms used in this Statement of Work will have the same meaning as set forth in the Agreement. In the event of any conflict or inconsistency between the terms and conditions of this SOW and the terms and conditions of the Agreement, the terms and conditions of the Agreement shall in all instances govern and control.

<i>Client Contact Email</i>	clare.ologhlen@grunenthal.com mim@grunenthal.com

PROJECT OVERVIEW

Client has determined the need for EVERSANA to provide Global Medical Information (“MI”) Contact Center services in support of its products (the “Products”).

To fulfill this request, EVERSANA has set up and implemented a Contract Center under a separate SOW between the parties. Upon execution of this Statement of Work and after completion of the implementation of the MI Contact Center, EVERSANA will begin the operation of the Contact Center according to the assumptions and with the goal of delivering the items outlined in the scope below.

EVERSANA and Client agree to conduct regular (at minimum quarterly) governance/steering review meetings to review the status of activities pursuant to this SOW, including medical information case volume, costs, actual and potential issues and concerns, and to address open issues or matters relative to the project. The detailed governance structure is defined in the EVERSANA Global Medical Communications Management Plan (“MCMP”) that was developed during the implementation of the medical information services. An overview of a typical governance structure and a list of Key Performance Indicators are provided in the Service Level Agreement in Appendix 1.

PROJECT SCOPE/DELIVERABLES

Medical Information Contact Center Services

EVERSANA has set up a Medical Information Contact Center to support Client’s Product information and medical inquiries, including intake and triaging of product complaints and adverse events. The Medical Information Contact Center will handle all inquiries related to the product including, but not limited to, indication, usage instructions, and instructions for intake & triaging of product complaints and adverse events.

Live Customer Information Services

EVERSANA will perform the product / MI services described below.

- Provide live staff coverage during the following customary business hours of operation: Monday to Friday, except during EVERSANA EU/UK business and banking holidays.
 - EU/UK: Monday to Friday 9:00 a.m. to 5:00 p.m. Central Europe Time (CET)
 - LatAm: Monday to Friday 9:00 a.m. to 5:00 p.m. (UTC -5 and UTC -4)Please see below for information about out of office hours coverage.
- Provide the following language capabilities:
 - EU/UK: Six (6) languages will be covered by native speaking agents (English, French, German, Spanish, Portuguese, and Italian). Services for enquiries in Flemish, Dutch, Swedish, Norwegian, Danish and Finnish will be provided via live interpretation and translation services.
 - LatAm: Two (2) languages will be covered by native speaking agents (Spanish and Portuguese).
- Receive and process product information requests for Client's product(s) including, but not limited, to indication, usage instructions, and instructions for intake & triaging of product complaints and adverse events.
- The shared medical information associates will respond to healthcare professional and consumer inquiries with approved standard verbal and/or written responses, or with information from other Client-provided or Client-approved reference sources (e.g., product labelling (SmPC), product label guide, patient education materials, product monograph, study protocols, etc.). Patient/consumer inquiries will be handled in accordance to Client approved procedures. If information is provided, the patient/consumer will be instructed to discuss their health conditions with their healthcare provider(s).
- For any enquiry for which a standard response is unavailable, follow the relevant escalation process described in the MCMP, in which EVERSANA will notify Client of request, nature of topic and reasons for information request. Upon receipt of the Client-approved non-standard response, follow up with customer.
- Entry of a case record for each case received into EVERSANA's MIQ MI database utilizing good documentation practices to ensure reasonable data integrity. All medical information inquiries and responses will be documented in the local language of the requestor and a summary of each will be provided in English.
- Fulfillment - provide information and literature fulfillment consistent with Client policy in response to requests from healthcare professionals and consumers, including article reprints, standard response documents (SRDs), patient or healthcare professional educational brochures, product monograph and other Client approved materials.
 - Fulfillment includes any case that requires a non-verbal response, including written, fax, email or other electronic response, or generating a letter, and compiling and delivering literature, articles, package insert, product or patient information brochures or related materials.
- Provide follow-up mailing as determined by Client and EVERSANA, where appropriate.
- For calls received during out-of-office hours in EU/UK, after-hours coverage by on-call medical information associate will be provided to handle urgent MI inquiries or intake product complaint and adverse event reports regarding its product(s). Callers will be able to select an option from the after-hours phone greeting to speak with a medical information associate during after-hours if they have an urgent MI inquiry or to report an adverse event or product complaint. Selection of this option from the phone greeting would forward the call to an on-call medical information associate. If non-urgent, the caller has the option to leave a voicemail message whereupon the call will be returned during the next business day. Non-business hours for EU/UK support include hours outside 9 a.m. to 5p.m. CET Monday to Friday, weekends, and EU/UK holidays.

The out-of-office hours service will include native language capabilities for English and Italian; a live interpretation service will be used for all other languages.

- For calls received during out-of-office hours in LatAm, a voicemail box will be set-up to receive any inquiries and the customer's call will be responded to the next business day. Non-business hours for LatAm support include hours outside outside 9 a.m. to 5 p.m. (UTC -5 and UTC -4) Monday to Friday, weekends, and EU/UK holidays.
- Provide appropriate support to the Client for audits and inspections

Adverse Experience ("AE") and Safety Information Intake and Documentation Services

EVERSANA will perform the AE intake/documentation services described below:

- EVERSANA shall ensure that all involved personnel (including affiliates, contractors and third parties) conducting the Service are appropriately qualified and trained on Pharmacovigilance (PV), based on training material provided by the Client, before the start of the Service, to be compliant with the applicable law and regulations. This applies to all new employees starting at EVERSANA who will be involved with the services required by the client.
- EVERSANA shall train appropriate staff on the medical communications management plan for intake, documentation and processing of AE reports and safety information for the product(s)
- To ensure the awareness of their obligation to forward AE reports and safety relevant information for the Products(s), EVERSANA will be responsible for ensuring regular PV training of its employees (including affiliates, contractors and third parties) and documenting the training process.
- Training records of all involved personnel as well as updates must be kept by EVERSANA and submitted to the Client upon request.
- Client will provide EVERSANA with the latest version of PV training material as applicable. EVERSANA should confirm the implementation of the provided material version. The implementation of PV training shall include an assessment test to confirm the appropriate level of understanding of the material and shall be concluded only after the passing score of the exam is achieved. The exam will be provided by the Client, along with the materials. The PV training shall be repeated on yearly basis.
- On monthly basis EVERSANA shall provide Client with compliance figures of the PV training provided to employees involved with the services requested by the Client.
- In response to inquiries received by EVERSANA, the contact centre staff will clarify/verify if there is an AE or safety information
- If yes, the reporter will be guided through the Client-approved AE report form in order to provide as complete a case as possible.
- Complete Client AE report form with details and information obtained from reporter.
- Forward completed Client AE report form via encrypted email or via E2B submission one business day or three calendar days to the approved distribution list as provided by Client. Transmission via E2B format allows direct submission into Client's safety database and eliminates the need for manual entry of AE report data into Client's safety database. Alternative methods (e.g. telephone or fax) are to be used in the event of technical failure preventing the reporting timelines to be met, or during activation of a Business Continuity Plan.
- When processing AEs that also contain PCs, EVERSANA staff will document that a corresponding PC report has also been filed by EVERSANA and include the PC report case number.
- Use reasonable efforts to obtain confirmation of Client's receipt of the AE report. If confirmation of receipt is not received by EVERSANA, use reasonable follow up efforts to ensure the AE has been received by Client.
- On a weekly basis, provide Client a listing of AE reports received/processed by EVERSANA.
- Each AE report will have a unique identifier.
- Support PV requests by the Client, including during audits/inspections.

Product Complaint (“PC”) Intake and Documentation Support Services

EVERSANA will perform PC intake and documentation support services described below:

- EVERSANA shall ensure that all involved personnel (including affiliates, contractors and third parties) conducting the Service are appropriately qualified and trained on product complaints, based on training material provided by the Client, before the start of the Service, to be compliant with the applicable law and regulations. This applies to all new employees starting at EVERSANA who will be involved with the services required by the client.
- Train appropriate staff regarding EVERSANA medical communications management plan for intake, documentation and processing of PCs reports for the product(s)
- In response to inquiries received by EVERSANA, clarify/verify if there is a PC regarding product(s). If yes, query reporter to obtain information sufficient to complete Client-approved Client PC report form.
- Complete Client-approved PC report form.
- When processing PCs that also contain AE reports, EVERSANA staff will document that a corresponding AE report has also been filed by EVERSANA and include the AE report case number.
- Forward completed Client PC report via email or integration with Client’s quality management system within one business day or three calendar days, to the approved distribution list as provided by Client. Use reasonable efforts to seek to obtain confirmation of Client's receipt of Client PC report. If confirmation of receipt not received by EVERSANA, use reasonable follow-up efforts to help assure Client PC has been received by Client.
- On a weekly or monthly basis, provide Client with a listing of PC reports received/processed by EVERSANA.
- **Optional Services**
 - Conducting follow-up to obtain additional product complaint report information not available at time of initial report
 - Sending retrieval packages to complainants to ensure successful retrieval of suspect product for Client Quality investigation
 - Sending out other product complaint correspondences to complainants such as acknowledgment and close-out letters

MIQ Integration & Webform Maintenance Services

- **Veeva CRM Integration Maintenance:** EVERSANA will maintain MI system Integration with Client’s Veeva CRM in order to directly import Medical Information Request Forms (“MIRFs”).
- **Veeva MedComms Integration:** EVERSANA will maintain MI system Integration with Client’s Veeva Vault instance to directly synchronize documents between the systems.
 - Veeva CRM and Vault maintenance includes, but is not limited to, continuous monitoring, unlimited technical support, configuration changes as needed, (re)validation for upgrades, license and hosting maintenance and any other administrative functions necessary to ensure that this feature remains operational and error free at all times.
- **Webform integration (Optional):** EVERSANA will configure a website to intake MI requests, AEs and PCs.
 - Requests and complaints submitted through the integrated webform are imported directly into the MI system as a case.
 - Alternatively, the client can link to the webform from their own website(s) for MI, AE, PC intake.
 - EVERSANA is automatically notified of exceptions or errors that occur regarding the webform.
 - The EVERSANA webform can be configured to transmit the webform data via structured file via email or SFTP automatically to the client’s MI system if desired.

- **Medical Information Data Export to Client Data Lake:** EVERSANA will provide client with access to client's data within the EVERSANA medical information system via flat file output delivered to client via periodic file transfers (daily, twice daily, etc.) utilizing SFTP or equivalent file transfer method.
 - Data files can be full or incremental. Data can be normalized into a single file or separate files can be used for specific data sets (referential as needed using unique record identifiers).
 - EVERSANA will ensure maintenance and monitoring of the data export to the Client data lake as an on-going service.
 - Changes requested by the client post go-live and beyond the four (4) week hypercare period that exceeds one (1) hour of work within a single invoice period will incur additional charges at the agreed upon special projects hourly rate.

MIQ Integration Optional Services

- **E2B Integration:** The EVERSANA MI system can output AE reports in the E2B (R2) data format, which can be automatically imported into the Client's safety database.
 - E2B files can be transported via a validated Gateway setup or via a validated SFTP/VPN automated file exchange or other non-gateway methods of file transfer. In either case, the connection between the systems can be two-way as the receiving system may also be capable of outputting an acknowledgement of receipt file that can then be auto imported into the MIQ system hosted by EVERSANA.
 - If an ACK file or other form of acknowledgement is not received within a set timeframe, EVERSANA will be notified automatically by the EVERANA MI system.
- **ePQC (MasterControl) Integration:** The EVERSANA MI system will output PC reports in a structured flat file format, such as CSV or XML and transfer the file to the client system via SFTP or email. The file can then be imported by the client PC handling system using native or third-party integration tools.
 - EVERSANA will work with the client and / or the client vendors to determine the file structure needed for import into the client PC system. This work will include project management and system SMEs and will mainly involve data mapping between the two systems.
 - EVERSANA will work with the client to fully test the end-to-end integration, including running test scripts and establishing a hypercare period wherein all PC data transfers within the hypercare period will be carefully monitored and analyzed to ensure all transfers were successful.
 - EVERSANA will establish an acknowledgement and reconciliation process for ongoing assurance that all data is being successfully transferred to the client's system. This may involve an exchange of reports between EVERSANA and the client PC representatives and / or the establishment of an automated or manual acknowledgement process where either the destination system communicates back the EVERSANA MI system by exchanging a file containing the details of the import process, including the unique case IDs for both systems. The ACK file can also be configured to indicate import errors, which can trigger automatic notifications to the EVERSANA system administrators.

PRICING

Medical Information pricing is based on the following assumptions:

- In the tables below, Final Pricing in black reflects multiple discounts. For reference, EVERSANA standard pricing is noted in red.
- Year 1 total operational discount savings = €234,280
- All work related to adding new products to MI services will be performed at Special Projects rate
- Operational Fees will be incurred effective June 1, 2023.

Ongoing Operational Service Pricing/Client Headquarters Costs

Activity	Unit Type	# of Units	Fee	Annual Total
MIQ user licenses for use by Client personnel (EVERSANA maintains software system upgrades, validation, hosting, training, and support). Note: licenses issued on named basis, not to be shared between users	Read Only License Monthly per license /per user 2 Licenses	24	€348 (€870)	€8,352
TOTAL HQ COST/ONGOING FEES				€8,352

As additional products are added to scope of project, additional fees for startup work to be charged based on special projects fee listed below

Ongoing Operational & Database Service Pricing/Joint EU/UK & LatAm Costs

Activity	Unit Type	# of Units	Fee	Annual Total
Dedicated FTE Project Lead which will provide all project management services includes support from an experienced project lead functioning as single point of contact that oversees the project success for both EU/UK and LATAM regions and all services provided including audit support as needed. Note: Starts 1June2023.	Monthly	12	€11,500 (€12,500)	€138,000
Pass-Through Direct Costs: including phone toll charges, postage fee, printing cost, article retrieval, travel expenses (if needed). Only actual incurred costs will be pass-through to the Client.	Monthly	12	€500 (Estimated)	€6,000
EU/UK and LATAM Medical Inquiry Systems Software Services:	Annual	1	€57,924	€57,924

Activity	Unit Type	# of Units	Fee	Annual Total
Support, hosting, maintenance, upgrades and EVERSANA team user license fees. One database fee for all countries/regions, depending on set-up and configuration in the system (i.e., multiple tenets vs. sites)	(Fees to start 01Apr2023)		(€72,000)	
Support/maintenance MIQ Veeva CRM integration: Using application program interfaces (APIs), MIQ will connect directly to the client's Veeva CRM system to automatically import medical information request forms (MIRFs) and update the case processing status. [Note: Cost for 1 API integration between MIQ and CRM].	Monthly	12	€ 240	€ 2,880
Support/maintenance MIQ Veeva Vault integration: Using APIs, MIQ will connect directly to the client's Veeva Vault instance automatically and synchronize the client's document library with the EVERSANA MI system library. [Note: Cost for 1 API integration between MIQ and Veeva Vault].	Monthly	12	€ 405	€ 4,860
Customer Satisfaction Survey Service: maintenance/support/reporting	Monthly	12	€ 445	€ 5,340
Medical Information Data Export to Data Lake Service: maintenance/monitoring/server and related license fees (cost per export service for MIQ instance)	Monthly	12	€ 350	€ 4,200
TOTAL JOINT COST/ONGOING OPERATIONAL & DATABASE FEES				€219,204

EU/UK On-going Medical Information Contact Center Services- Shared Medical Information Staffing Pricing

Activity	Unit Type	# of Units	Fee	Annual Total
After Hours Coverage: phone intake/collection of AE reports and PCs, and handling of urgent phone MI requests (coverage performed by MI specialists from our global operations team). Call Recording Maintenance: Provide retention of all LatAm phone call recordings for a period of two (2) years.	Monthly	12	\$500	\$6,000
TOTAL LatAm ONGOING OPERATIONAL & TRANSACTIONAL FEES				\$169,704

* Fees will be under EU/UK Ongoing Services.

MI Systems/ Integration & MI Service Add-Ons

Activity	Unit Type	Per Unit Price
MI Contact Center Staffing Retainer During EVERSANA EU/UK holidays for LatAm contact center: If requested by Client, EVERSANA will provide live phone coverage during standard LatAm business hours during observed EVERSANA EU/UK holidays.	Per Day	€1,000
Webform hosting/maintenance: online medical inquiry submission form (optionally can include AE and PC submissions). Pre-configured form with multiple configuration options. Can be embedded as an iframe into an existing client website. Cost per webform supported by EVERSANA.	Monthly Maintenance	€470
MIQ user licenses for use by Client personnel (EVERSANA maintains software system upgrades, validation, hosting, training, and support).. Note: licenses issued on named basis, not to be shared between users Additional licenses at standard rate	Read Only License Monthly per license /per user	€870
	Full User License Monthly per license /per user	€1,750
Territorial (ZTT) Alignment Services: aligns Client's sales force/MSL/specialty team territory information into the EVERSANA MIQ case database	Month/Team	€440
Data Analytics / Data Visualization Tool: Interactive dashboard tool for metrics, customer insights, and analytics. [Note: Includes five (5) user licenses]	Set-up (one time)	€1,350
	Annual Recurring	€13,260
Additional Webform Development: online medical inquiry submission form (optionally can include AE and PC submissions). Pre-configured form with multiple configuration options. Can be embedded as an iframe into an existing client website. Cost per form.	Set-up (one time)	€2,500
	Annual Recurring (per form)	€5,640
MIQ E2B (Gateway) : EVERSANA MI system will be setup to automatically submit AE E2B files directly to client's safety system for automatic import using an industry standard gateway or SFTP or other non-gateway methods of file transfer. [Note: Cost for 1 E2B integration between MIQ and Argus].	Set-up (one-time)	€ 5,035 (€5,300)
	Annual Recurring	€ 9,600
MIQ Mastercontrol Integration [Note: Cost of 1 integration between MIQ and MasterControl]	Set-up (one-time)	€ 3,600 (€4,000)
	Annual Recurring	€ 8,100
Special Project Services: including participation in ad hoc special projects that may arise; startup work related to additional products; staff training, MI associate staffing at scientific medical affairs booths; custom programming according to Client's requests (e.g., special/ad hoc reports, database customization, database features, database tracking, etc.); participation or responding to legal	Hour	€220 (U.S. pharmacist) €155 (U.S. allied health / life science or EU/UK medical information specialists) and

depositions/subpoenas; or other special projects that require the expertise of EVERSANA staff		technical system support
MI Content Development Services (medical writing): Developing, maintaining, and managing MI content (SRDs, FAQs, etc.) by medical writing staff. <i>Note that separate project based pricing for larger MI content development projects may be requested by Client.</i>	Hour	€225
Translation Services (Translation Vendor): Translation and validation of translation of Client documents, responses and templates via 3 rd party translation services provider	Pass-Thru + special projects hourly rate for administrative and project management services, plus EVERSANA medical writing rate for medical writer support time	
Metric reporting services -two (2) standard output reports at no charge per designated reporting period (i.e., project activity summary report will be provided monthly; the second (customer contact case report) will be provided on such periodic basis as Client specifies, but not more frequently than daily. The two standard reports may be provided for all regions and affiliates as defined by Client. Note that if programming is required for additional reports requested by Client, special projects hourly rate will apply for the one-time programming	Per Additional Report in established frequency	€115
AE Targeted Questionnaire (Note: additional fees for AE Questionnaire implementation including MI system configuration, MCMP update, and training to be charged based on Special Projects fee listed above)	Per Case	€66
PC Follow-Up Service (Optional): On an <i>ad hoc</i> basis (e.g., upon Client Quality department specific request), EVERSANA will perform follow-up service to obtain specific information that was not available or not provided at the time of the initial product complaint report. Perform two additional outbound calls or email attempts to obtain additional product quality information as specified by Client.	Follow-Up Case	€93
Expanded PC reporting services: Fulfillment of retrieval package to Complainant for return of suspect product for Client Quality investigation (Mailing cost of retrieval packages will be billed to client as pass-thru fees)	Retrieval Kit Fulfillment	€75
Expanded PC reporting services: Fulfillment of PC correspondences to Complainant (i.e., Acknowledgment Letter and/or Close-Out Letter)	PC Response Fulfillment	€15

PROJECT ASSUMPTIONS

Client will provide access to necessary facilities, employees, and procedures in a timely manner.

Additional services or deliverables required over and above those specified on this document would be provided at additional cost and specified on another quote or statement of work.

Direct expenses including but not limited to printing, postage, overnight courier services, regulatory agency fees, interpreter and written translation fees (+special projects hourly rate for administrative and project management services, plus medical writing rate for EVERSANA medical writer support time), will be billed to Client at EVERSANA's cost and are not subject to any mark-up or discount. Direct expenses also include travel (at the request of Client such as airfare, lodging, meals, ground transportation and out-of-pocket expenses). EVERSANA staff must adhere to the Client's travel policy.

If applicable, travel time for EVERSANA resources will be billed at the Special Projects Hourly Rate commiserate with the resource level: US Pharmacist at €220 and/or U.S. allied health / life science or EU/UK medical information specialist or technical staff at €155.

Client will be invoiced only for actual service performed and costs incurred.

Scope and pricing set forth in this SOW are based on current understandings of Client's situation, and if these understandings are inaccurate, EVERSANA will provide a revised SOW for Client's review and approval.

CHANGE MANAGEMENT PROCESS

Changes in scope and/or pricing will be communicated via email between EVERSANA and Client. EVERSANA will provide time and Euro estimates for any change which will be approved in writing by Client prior to implementing such change. If necessary, Amendment(s) to the SOW will be executed.

PAYMENT INFORMATION AND GENERAL CONDITIONS

EVERSANA will submit invoices for service and/or expenses to Client on a monthly basis.

- For the EU/UK Services/Expenses, EVERSANA will submit invoices directly to each of the Client's affiliates, based on the actual volume of enquiries during the billing period. Invoices and payments will be made in EUR.
- For LatAm Services/Expenses, EVERSANA will submit a single invoice to the Client's Regional Head Office in Panama, together with a breakdown of costs per Client affiliate based on the actual volume of enquiries during the billing period. Invoices and payments will be made in USD.
- For Joint EU/UK & LatAm Services/Expenses, EVERSANA will divide the total cost based on enquiry volume percentages among the EU/UK monthly affiliate invoices and the LatAm monthly invoice,
- EVERSANA will provide volume reporting for EU/UK MI cases, AEs, and PCs, by country to assist Client with affiliate cost division. The same type of reporting will also be provided for LatAm.

Client shall reimburse acceptable third-party out-of-pocket expenses which may include but are not limited to the following: postage, photocopying, telecommunications, storage of materials and any pre-approved travel requested by Client. All reasonable expenses will be billed as a pass-through cost.

TERM, TERMINATION, EFFECT OF TERMINATION

This Statement of Work shall take effect as of the Effective Date and remain in effect until 31 May 2026 and in accordance with the terms of the Agreement or (ii) termination by a party in accordance with terms and conditions as outlined in the Agreement.

Upon expiration or termination of this Statement of Work, Client shall compensate EVERSANA for its services up to the effective date of termination, including all expenses incurred (in accordance with the provisions of this Statement of Work).

ACCEPTANCE AND AUTHORIZATION

This Statement of Work may be executed simultaneously in two (2) or more counterparts, and by PDF or other electronic transmission, each of which counterparts shall be deemed an original, but all of which together shall constitute one and the same instrument, provided that all such counterparts, in the aggregate, shall contain the signatures of all parties hereto.

IN WITNESS WHEREOF, the parties have executed this Statement of Work as of the Effective Date.

APPENDIX 1: Governance Structure and Medical Information Contact Center Service Levels

To the extent that the Parties mutually agree that any Services shall be subject to service level agreement (SLA) commitments by EVERSANA, such SLAs will be set forth below and shall include terms as to performance criteria, performance measurement, non-compliance recourse and reporting. EVERSANA shall report the SLA compliance on monthly basis. SLAs shall be in effect as follows:

Performance	Measurement	Service Level Agreement
Phone Call Handling Service Level Rate	30 seconds from time the call hits the queue selected by the caller to the time the caller speaks to a representative	$\geq 80\%$
Abandonment Rate	Percentage of calls received in the IVR, where a selection was made, and caller was placed in a queue but caller abandons the call prior to speaking with a representative	$< 5\%$
Live Call Success Rate	Percentage of calls handled live by the MI contact center	$\geq 90\%$
Adverse Event & Product Complaints Reported	1 business day or three calendar days from inquiry receipt to report submitted (no later than the end of the next business day from the date and time of EVERSANA receipt of the AE/PC)	$\geq 95\%$

EVERSANA shall collaborate with Client in good faith to resolve any SLA non-compliance. However, in the event of recurring non-compliance, Client has the option to exercise any of the following recourse:

- **Non-performing SLA:** If a single SLA is missed in for 3 consecutive months, EVERSANA shall present to Client an Action Plan within 15 business days with a proposed resolution. EVERSANA shall execute on the Action Plan as soon as approved by Client and show improvement within 2 months.
- **Non-performing Partnership:** If any 2 or more SLAs are missed in 3 consecutive months, EVERSANA shall present Client with the active oversight plan and immediate actions for resolution. EVERSANA shall execute on the oversight plan and resolution steps as soon as approved by Client and show improvement within 2 months.

EVERSANA shall conduct regular governance meeting (once a month) to evaluate the performance against the SLA's. In case of either non-performing SLA or Non-performing partnership, in addition to the remediation mentioned above, EVERSANA will conduct a weekly or bi-weekly reporting (as deemed appropriate) on the impacted SLA's to provide regular update until the underlying root cause are fully addressed and SLA performance is back to expected performance levels as defined above.

EVE230601 SOW Global MI Operational

Final Audit Report
